**Subject:** Temperature Draft report conference call

Thank you all for participating in the Doodle poll for our call. As you would expect, no proposed time worked for everyone. To get the maximum participation of the committee members as well as participation from each agency, the call will be held on

**Wednesday, March 6 at 3PM pacific.**

I have sent this also to those of you who didn't vote or said that this time wouldn't work for you in case your schedule frees up between now and then. I will send an outlook appointment with conference call information out to the entire committee and interested parties. I encourage you to add your report comments to the google doc, or send them to me prior to the call. The intent of the call is to provide time for a dialogue between the authors and the committee members. The more the authors know of your comments beforehand, the better they will be prepared for the discussion.

Here is the link to the google document:

Thank you again for your participation throughout this process,  
walt
